

Dear Educator,

Congratulations on your recent grant funding and award!

At Sargent-Welch we understand the challenges involved with funding a classroom project or program, and we want to help stretch your grant dollars even further.

We offer a unique program that matches your grant funding dollar for dollar on lab materials and equipment. The Sargent-Welch Grant Match Program benefits schools and their students by boosting the grant or award funding you receive from other sources.

The Sargent-Welch Grant Match program assists your school in a variety of ways:

- Boosts your grant and award funding
- Allows for the receipt of MORE science materials and equipment for your school.
- Saves tax and/or shipping charges on the Grant-Match items.
- Fulfills requirements of many grants for “local in-kind” support required by many grants.

When you use your grant funds to buy science supplies from Sargent-Welch through the Grant Match Program, you will receive matching money for every dollar you spend. This extra money can be used towards additional supplies and materials from Sargent-Welch.

Enclosed you will find a short application for the Sargent-Welch Grant Match Program. Significantly increase your effective purchasing power by filling this form out today and returning to us by fax or mail.

To see everything Sargent-Welch has to offer you and your students, visit sargentwelch.com. There you will find our vast collection of supplies for every science, including laboratory apparatus, glassware, models, state-of-the-art biotechnology materials, furniture, and much more. You can also request a catalog online at sargentwelch.com or by calling customer service at 1-800-727-4368.

Take advantage of this opportunity today and make every grant dollar go further. We started the Grant Match Program to assist science instructors who are inspired and motivated to improve science education in their schools. And, we look forward to helping you.

Sincerely,

Andrea Childs
Sargent-Welch Brand Manager
